Budget Review: Nile - Amanda and I met this afternoon and went over the budget in detail. We are in line with where we should be, funds are getting tight and we will be watching the remaining purchases closely. Any non-essential purchase will be suspended. I have moved forward with the upgrade to QuickBooks Pro, and we will begin the transition on July 6th. Jim motioned to approve Payroll in the amount of \$165,107.80 and Expenses in the amount of \$360,137.58 for a total of \$525,245.38. Mike seconded and voting was unanimous by Jim, Mike, Kyle and Wynn in the affirmative.

OLD BUSINESS:

1. Ririe Station Update: The building has started being constructed. Per Dennis Wilkinson ICRMP has contacted an engineer to come out and inspect the property. I have drafted an additional reply letter to ICRMP and provided a copy to the Commissioners. The letter covers the course of proceedings from last year through today. This letter gives them a 14-day reply window, and I anticipate a response from this letter.
2. Insurance Update: We are currently looking into insurance options still. With the small group we have options that are rather expensive. The full-time personnel are talking about union options too. We will be bringing more information in as we work on this next budget. We should have more information in July.

NEW BUSINESS:

1. Ambulance Service Contracts: The ambulance district retained an attorney Skylar Johns. Dennis and Skylar have spoken and will have some changes in the next day or two. Dennis anticipates we will have the contract finalized by the ambulance district's next meeting on July 1st.

FIRE CHIEF REPORT:

We are conducting final interviews for the new hire on Wednesday June 17th.

Engine 5 responded to a call and left a door open and hit the building. The building was damaged along with E5. A week later Engine 5 broke down while responding to a call, it currently will not start. We have a mechanic working on diagnosing the issue. We are currently running L1 and may need to start rotating other engines as E5 until we figure out what is wrong with E5.
