

Leadership Meeting Minutes

May 11, 2026

I. DISTRICT ITEMS

- EV Fire Training – Presented by G. Bastien.
- **Badge Updates** - The district is willing to work with each station's leadership on new badge orders but cannot fund a full district-wide replacement at once. Badges will not be initially issued due to high turnover rates. Each station is responsible for covering 50% of their own badge order cost.
 - **ACTION** Station leadership to coordinate badge orders with the district.
- **Medical Supplies and Medical Bags** - The district passed its EMS state inspection last month; however, some expired supplies were found. Expired supplies must be replaced during rig checks — expired supplies cannot remain on the rigs.
 - **ACTION** All personnel to verify and replace expired supplies during rig checks.
- **2026 Idaho Fire Academy** - 5 personnel are signed up and confirmed. Any additional registrations will be self-funded and self-arranged. Individuals may register independently on the website.
- **Volunteer Interviews — May 18 & 19** - Station 1 and Station 2 interviews have been scheduled. Scheduling for Station 3 and Station 4 is in progress.
- **Fire Report Coding Reminder** - Stop coding actual controlled burn fires as field, grass, or urban interface fires when they are controlled burns. We have been over this several times. Contact Amanda if clarification is needed on proper fire coding.

II. STATION REPORTS

Station 1:

- Lighting on Brush 1 is complete.
 - Follow up: obtain fuel card for Brush 1.
- Bob is working on Tender inlet.
- BlueCard board – we can get more made if you need, each station please check and see if you need a new one.
